

• CM 2 Abandoned Equip

- tag equipment

- evaluation tends to be more cost vs. ~~test~~ tech evaluation

- Canada has registration for abandoned not clear if this cleared when removed

- what is minimal eval. required to remove.

- uses design guide for eval @ Callaway

• intent to reuse AIP equipment

• Long term TMODs

- temp cables for cameras considered?
- cameras not for plant operation depending on location or chemistry from cable. Need to evaluate location + material or fire

TRPO
perspective

- INPO CM.4 Fuels
 - is moving to NF out of CM
- Identify critical parameters
 - info is there but not found
- FMEA for risk of med not for process
- critical thinking any success w/ mentoring?
- Eng. Managers + Supervisor asked to go to weekly meetings that pull them away from engagement w/ staff.
