CMBG: Virtual Conference Date Announced!

June 15, 2021

The CMBG Steering Committee is pleased to host the 28th annual Configuration Management Benchmarking Group (CMBG) conference on July 21, 2021, from 1 – 5 PM EST. This will be a half-day virtual conference using Microsoft Teams as the platform.

The CMBG conference is a great way to collaborate with other Configuration Management (CM) practitioners throughout the nuclear industry. The conference covers timely topics of true relevance to implementation of successful CM programs. As in the past, the 2021 conference promises to be another informative and interactive forum that enables knowledge-sharing of best industry practices.

Further details on the 2021 CMBG conference will be included on the CMBG website (<http://www.cmbg.org/>).

Conference registration is open on the CMBG website as well: <https://www.pkmj.com/cmbg/>

Feel free to reach out with any questions, comments, or concerns.
